

EUSOBI Annual Scientific Meeting 2017

The Young Physician-Scientist Grant

September 22-23, 2017 | Berlin, Germany

The young physician-scientist grant aims to stimulate residents and young radiologists/nuclear medicine physicians to pursue a career in breast imaging research.

During the EUSOBI Annual Scientific Meeting 2017 in Berlin, Germany, the society will offer 1 young physician (radiology or nuclear medicine) the possibility to orally present his/her breast related research in the plenary lecture hall of the EUSOBI annual scientific meeting.

Abstracts should be submitted before April 24, 2017, 23:59 (CET), through the digital abstract submission site: <https://esociety.netkey.at/eusobi/abstractsubmission/>

Please note that this requires also a letter of declaration and support from your head of department.

Grant

EUSOBI is happy to cover the registration fee for the resident/young radiologist or nuclear medicine specialist and will reimburse 2 nights of hotel accommodation up to a maximum amount of € 500,00.

Qualification criteria of the applicant

- To be a resident or young radiologist/nuclear medicine physician
- To be younger than 36 years at the date of the submission deadline
- To be a member of the EUSOBI in good standing
- To be the first author of the submitted abstract
- To have submitted a signed letter of support from your head of department (see below)

Qualification criteria of the abstract

- The abstract should neither be published/presented at another meeting, nor refer to an already published article (print and online), prior to September 2017.
- The abstract needs to be submitted by the first author

Abstract structure

Abstracts should be no longer than 300 words and be structured as follows:

Title

Provide an attractive and concise title for your work

Purpose

Clearly describe what you intend to evaluate

Methods

Accurately describe the essential methods employed in your research to a level that would allow repetition of the experiment

Results

Report the obtained results in a straightforward manner. Please provide confidence intervals and measures of statistical significance when appropriate

Conclusion

Place the results in perspective to the purpose of your study

Summary statement

A summary statement of at most 30 words should also be provided, this should allow readers to understand the topic of the study and the most essential findings

Rating

All abstracts will be peer reviewed by at least 2 independent reviewers. Abstracts will be scored on scientific merits, relevance to the EUSOBI audience, originality, and clarity of presentation. Abstracts scored as poor on any of these items will be automatically rejected. All other abstracts that are not selected for the grant will still be considered for poster presentation.

The following scoring system will be used:

- 1 = Excellent
- 2 = Good
- 3 = Moderate
- 4 = Fair
- 5 = Poor

Signed declaration and letter of support from the supervisor

All abstracts that are competing for the Young Physician-Scientist Grant need to be accompanied by a signed declaration from the head of department.

The declaration must make clear that the application criteria is met and the research has been conducted.
