

EUSOBI Educational Committee

Chair: Prof. Federica Pediconi

DESCRIPTION

The Educational Committee aims to enhance the profile and recognition of subspecialist breast radiology throughout Europe through promoting standards of excellence in education and training.

TASKS

Members of the Educational Committee are required:

- to help preparing programmes for courses, webinars and other educational activities
- to give talks at courses and congresses
- to become tutor for ESOR-EUSOBI fellowship holders
- to help with the preparation and performance of the European Diploma in Breast Imaging (e.g. preparation of material and questions, evaluation of applicants, act as examiner and/or observer as soon as EDBI is obtained)
- to participate in meetings for the organization of educational activities
- to help updating the chapters of the European Training Curricula for Radiology related to breast radiology

EUSOBI International Relations Committee

Chair: Dr. Alexandra Athanasiou

DESCRIPTION

The International Relations Committee aims to create connections and foster liaisons with other European and international societies, as well as to increase EUSOBI's offer and visibility to enhance and elevate the level of radiologic breast examination.

TASKS

The International Relations Committee members are involved:

- in public relation initiatives of the society
- in the organisation of "Meets-sessions" at our own annual scientific meeting and vice versa at annual meetings or related societies
- in the cooperation and the creation of Memorandum of Understandings with European and international societies
- in other initiatives like education and training of underserved countries/regions
- in the provision of educational programmes and outreach
- in spotlighting relevant issues identified through committee programmes and supporting research

EUSOBI Scientific Committee

Chair: Dr. Ritse M. Mann

DESCRIPTION

The scientific committee of EUSOBI aims to promote the performance of science in breast imaging and the integration of scientific results in clinical practice.

TASKS

The Scientific Committee members are involved:

- in the evaluation of abstracts submitted to the EUSOBI Annual Scientific Meeting
- in preparing the scientific programme for the EUSOBI Annual Scientific Meeting
- in the evaluation/approval of external studies and questionnaires that are sent to EUSOBI members
- in the generation of evidence based EUSOBI guidelines and recommendations
- in the recommendation of articles, papers, guidelines and useful links for the EUSOBI website

EUSOBI Young Club Committee

Chair: Dr. Elisabetta Giannotti

DESCRIPTION

The EYC aims to create connections and foster collaborations between young specialists and researchers with an interest in breast imaging, by providing an international communication platform to share experiences, exchange ideas and knowledge, and opportunities for social interaction. The Young Club is actively involved in the organisation of courses and webinars that address educational and research topics in breast imaging, as well as professional issues that young breast radiologists may encounter in Europe (and all over the world).

The EYC Committee works actively with the EUSOBI Executive Board and other Committees to promote the active participation and involvement of young breast imaging specialists in the society and breast imaging community.

TASKS

The EYC Committee members are required:

- to collaborate and support the organization of EYC educational activities as webinars, journal club and courses. This includes help in the development of the program, moderating session and promptly participate in all the planned activities.
- to assist EUSOBI fellow in the management of the EUSOBI social media presence.
- to collaborate in drafting of newsletters/educational papers and other scientific publications.
- to maintain education in breast imaging, being up to date with latest scientific development and consider taking further qualification as the European Diploma in Breast Imaging.
