EUROPEAN DIPLOMA

IN BREAST IMAGING

The EDBI confirms specific competence of radiologists to perform, interpret and report mammography, ultrasound, MRI and breast intervention. It will assist breast imagers in the promotion of their skills and experience in breast imaging when dealing with other clinical colleagues and with the general public.

Step I: APPLICATION

Eligibility criteria & documentation

- EUSOBI application & documentation form
- curriculum vitae
- training in radiology / certificate of completed training
- subspecialty training
- proof of practice
- RIS documentation / logbook
- letter of support
- CME credits in breast imaging
- attendance of EUSOBI & ECR
- EUSOBI & ESR Membership

Step II: WRITTEN AND ORAL EXAM

Candidates judged to have satisfied Step I are invited to take Step II. Step II comprises written and oral components and can be taken either during ECR or the EUSOBI Annual Scientific Meeting.

[Click here](#) to check the detailed eligibility criteria, expected knowledge, examination description as well as question examples.
